QA Level 2 Award in

# Principles of Risk Assessment (RQF)

1 day course

Ofqual regulated

Refresher training recommended every 3 years

## Course Overview

It is an employer's duty to protect the health, safety and welfare of their employees and other people who might be affected by their business. This includes providing sufficient information, instruction and training to employees to allow them to work in a way that does not put themselves or others at risk.

The **QA Level 2 Award in Principles of Risk Assessment (RQF)** is a regulated and nationally recognised qualification specifically designed to provide candidates with a greater awareness of risks within the workplace and the measures that can be taken to control them.

Ideal for all employees, this 1 day course covers a variety of topics, including: the main causes of work-related fatalities, processes for undertaking a risk assessment, methods that can be used to prioritise risks and more.

## What's Covered?

- Main causes of work-related fatalities, injuries and ill health
- Moral, legal and economic reasons for preventing accidents and ill health at work
- Key terms associated with risk assessment in health and safety at work:
